Examine the project for potential effects on the environment, direct or indirect and answer the following questions. The "construction area," as specified below, includes all areas of ground disturbance associated with the project, including staging and stockpiling areas and temporary access roads.

Each answer must be briefly documented on the "Notes" pages at the end of the PES Form.

Α.	Potential Environmental Effects	Yes	To Be Determined	No
Ge	neral			
1.	Will the project require future construction to fully utilize the design capabilities included in the proposed project?			
2.	Will the project generate public controversy?			
No	ise			
3.	Is the project a Type I project as defined in 23 CFR 772.5(h); "construction on new location or the physical alteration of an existing highway, which significantly changes either the horizontal or vertical alignment or increases the number of through-traffic lanes"?			
4.	Does the project have the potential for adverse construction-related noise impact (such as related to pile driving)?			
Air	· Quality			
5.	Is the project in a NAAQS non-attainment or maintenance area?			
6.	Is the project exempt from the requirement that a conformity determination be made? (If "Yes," state which conformity exemption in 40 CFR 93.126, Table 2 applies):			
7.	Is the project exempt from regional conformity? (If "Yes," state which conformity exemption in 40 CFR 93.127, Table 3 applies):			
8.	If project is not exempt from regional conformity, (If "No" on Question #7) Is project in a metropolitan non-attainment/maintenance area? Is project in an isolated rural non-attainment area? Is project in a CO, PM10 and/or PM2.5 non-attainment/maintenance area?			
Ha	zardous Materials/Hazardous Waste			
9.	Is there potential for hazardous materials (including underground or aboveground tanks, etc.) and/or hazardous waste (including oil/water separators, waste oil, asbestos-containing material, lead-based paint, ADL, etc.) within or immediately adjacent to the construction area?			
Wa	ater Quality/Resources			
10.	Does the project have the potential to impact water resources (rivers, streams, bays, inlets, lakes, drainage sloughs) within or immediately adjacent to the project area?			
11.	Is the project within a designated sole-source aquifer?			
Co	astal Zone			
12.	Is the project within the State Coastal Zone, San Francisco Bay, or Suisun Marsh?			
Flo	podplain			
13.	Is the construction area located within a regulatory floodway or within the base floodplain (100-year) elevation of a watercourse or lake?			
Wi	ld and Scenic Rivers			
14.	Is the project within or immediately adjacent to a Wild and Scenic River System?			
Bio	ological Resources			
15.	Is there a potential for federally listed threatened or endangered species, or their critical habitat or essential fish habitat to occur within or adjacent to the construction area?			
16.	Does the project have the potential to directly or indirectly affect migratory birds, or their nests or eggs (such as vegetation removal, box culvert replacement/repair, bridge work, etc.)?			

Preliminary Environmental Study (PES) Form

17.	Is there a potential for wetlands to occur within or adjacent to the construction area?		
18.	Is there a potential for agricultural wetlands to occur within or adjacent to the construction area?		
19.	Is there a potential for the introduction or spread of invasive plant species?		
Se	ctions 4(f) and 6(f)		
20.	Are there any historic sites or publicly owned public parks, recreation areas, wildlife or waterfowl refuges (Section 4[f]) within or immediately adjacent to the construction area?		
21.	Does the project have the potential to affect properties acquired or improved with Land and Water Conservation Fund Act (Section 6[f]) funds?		
Vis	ual Resources		
22.	Does the project have the potential to affect any visual or scenic resources?		
Re	ocation Impacts		
23.	Will the project require the relocation of residential or business properties?		
Laı	nd Use, Community, and Farmland Impacts		
24.	Will the project require any right of way, including partial or full takes? Consider construction easements and utility relocations.		
25.	Is the project inconsistent with plans and goals adopted by the community?		
26.	Does the project have the potential to divide or disrupt neighborhoods/communities?		
27.	Does the project have the potential to disproportionately affect low-income and minority populations?		
28.	Will the project require the relocation of public utilities?		
29.	Will the project affect access to properties or roadways?		
30.	Will the project involve changes in access control to the State Highway System (SHS)?		
31.	Will the project involve the use of a temporary road, detour, or ramp closure?		
32.	Will the project reduce available parking?		
33.	Will the project construction encroach on state or federal lands?		
34.	Will the project convert any farmland to a different use or impact any farmlands?		
Cu	Itural Resources		
35.	Is there National Register listed, or potentially eligible historic properties, or archaeological resources within or immediately adjacent to the construction area? (Note: Caltrans PQS answers question #35)		
36.	Is the project adjacent to, or would it encroach on Tribal land?		

For Sections B, C, and D, check appropriate box to indicate required technical studies, coordination, permits, or approvals.
